

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the wheel supporting apparatus as recited in claim 1, which includes an elastic member attached to a load member provided in a wheel of a wheel unit and placed to allow vibrations of the wheel unit and vibrations of the load member to dampen each other. The wheel supporting apparatus also includes a suspension arm having one end connected to the elastic member and the other end fixed to a vehicle body pivotably in a top-bottom direction of the vehicle body. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
